React.js, Next.js, Redux Toolkit / Context: API, Tailwind CSS / Bootstrap, Javascript, ShadCN UI.

### BACKEND

Node.js, Express.js, Authentication (JWT, OAuth), Database, MongoDB, Git & Github, Postman/Thunder client

---

## PROJECTS

### 1. MY PORTFOLIO

I am a MERN Stack Developer with hands-on experience in building dynamic, responsive, and user-friendly web applications using MongoDB, Express.js, React.js, and Node. js. I specialize in developing scalable full-stack solutions, REST APIs, secure authentication systems, and modern front-end interfaces.

### 3. EDIFY NEPAL

EDIFY Nepal is an educational blog platform specially created to help children learn, grow, and explore knowledge in a simple and engaging way. It provides informative, creative, and easy-to-understand content designed to make learning fun and accessible. The platform focuses on delivering educational articles, moral stories, skill-based learning materials, and creative activities that support children's academic and personal development. EDIFY Nepal aims to build curiosity, critical thinking, and confidence among young learners. With a friendly approach and meaningful content, EDIFY Nepal is dedicated to shaping brighter futures through digital learning.

## 4. ELECTION INFORMATION

This platform is designed to provide real-time election data, helping users stay updated with the latest election results and information. It includes a live election countdown timer that displays the remaining time until election day. The system also provides detailed information about candidates, including their background, political affiliation, and complete manifesto. Users can easily explore candidate profiles, compare their agendas, and make informed decisions. This project focuses on transparency, accessibility, and digital awareness by making election-related information simple, organized, and available in real time.

## EDUCATION

**AADARSH MODEL SECONDARY SCHOOL | 2022-2025**  
**Diploma Information Technology (DIT)**

**SHREE SECONDARY SCHOOL MOURIGHAT | 2020-2021**  
**-GPA: 2.75/4.00**

---

## CERTIFICATION

Mern stack developer  
Broadway Infosys Pvt. Ltd.  
24th Nov, 2024 to 24th Feb, 2025

---

## CAREER GOALS

My goal as a MERN Stack Developer is to design and develop responsive, secure, and high-performance web applications using MongoDB, Express.js, React, and Node.js. I aim to strengthen my full-stack development skills by working on real-world projects that improve user experience and solve practical problems. I am committed to writing clean, maintainable code, learning new technologies, and staying updated with modern development practices. I seek opportunities where I can collaborate with a professional team, contribute innovative ideas, and grow both technically and personally. Ultimately, my objective is to become a highly capable full-stack developer who can build efficient digital solutions from end to end.
